

Academic Integrity Policy

What is Academic Dishonesty?

- Plagiarism: Submitting someone else's work as your own
- Cheating: Using unauthorized resources during exams
- Fabrication: Making up data or sources
- Collusion: Submitting identical work without authorization
- Contract cheating: Having someone else do your work

Plagiarism Prevention:

- Always cite sources using the required format (APA, Harvard, etc.)
- Use quotation marks for direct quotes
- Paraphrase properly and cite the original source
- Build in time to ask instructors if you're unsure
- Use plagiarism detection tools (e.g., Turnitin)

Consequences of Academic Dishonesty:

- First offense: Zero for assignment + formal warning
- Second offense: Failure in the course + disciplinary review
- Serious/repeated violations: Suspension or expulsion

Resources:

- Contact your Lecturer in Charge for guidance
- Attend academic integrity workshops (offered each semester)
- Visit Student Support Center for help with writing and research
- Use university library guides for proper citation formatting
