

A padlock is shown in the upper right quadrant, resting on a blue-toned background that resembles a circuit board or a digital interface. The padlock is metallic and has a red handle. The background is a mix of blue and red, with diagonal lines and a grid-like pattern. The overall theme is security and technology.

EMERGENCY RESPONSE PROCEDURES

SLIIT SECURITY AND SAFETY UNIT

“CAREFULNESS COSTS YOU NOTHING, CARELESSNESS MAY COST YOUR LIFE.”

The Emergency Response Procedures are to serve as a guideline for responding to any emergency that could or does affect you.
The purpose of these guidelines is to educate you regarding the response procedures during an incident or emergency to minimize or zero the damage.

SLIIT UNI

THE KNOWLEDGE UNIVERSITY

FIRE EMERGENCY

Have a prior knowledge about the fire protection system installed in the building you are occupied in. (Fire Exits, Fire extinguishers, and Fire Alarm System, Manual Call Points, Fire Points)

ACTION TO BE TAKEN WHEN A FIRE IS DETECTED:

- Activate the fire alarm system on your way out of the building.
- If a minor fire appears promptly direct the charge of the fire extinguisher towards the base of the flame.
- Never attempt to control a fire unless the building alarm has been sounded.
- If time permits, stabilize lab procedures, turn off stoves and ovens, and unplug devices.
- Close doors and windows as you leave if safe to do so.
- Don't use elevators.
- Feel doors before opening if door is hot don't open it.
- If smoke is present, stay near the floor where air will be less toxic.
- Signal for help by hanging an object.
- After an evacuation, report to your designated assembly point.
- Notify emergency responders of anyone trapped.
- Don't reenter an evacuated building.
- In the event of a serious fire, dial 119 and notify the CSSU at 011 754 3161 or Ext: 3161.

HOW TO USE FIRE EXTINGUISHERS, "PASS".

Pull the pin | Aim at the base | Squeeze the operating handle | Sweep from side to side

EXPLOSION

In the event of an explosion take following actions:

- Immediately take cover where possible.
- If inside a building, activate the fire alarm.
- Walk quickly to the nearest marked exit and ask others to do the same.
- Don't use elevators.
- Don't panic or create in others.
- Report to your designated assembly point.
- Don't reenter an evacuated building.
- After the effect of the explosion assist CSSU with information.

BOMB THREATS AND SUSPICIOUS PACKAGES

- If you find a suspicious object, package, or potential bomb on campus, DO NOT handle the object.
- Turn off the portable/ handheld radios and cell phones nearby.
- Be away from the area and immediately.
- If you receive a bomb threat on the phone, remain calm.
- Mail or Packages are suspicious, never open, or excessively handle it.
- Do not attempt to destroy the package on your own.
- Gently keep the package down and secure the area by closing doors, move away.
- Immediately inform CSSU or dial 119, Army Bomb Squad 011 243 4251.

INCIDENT OF FIREARM OR USE OF LETHAL WEAPON

If the shooting happening closely or vicinity following actions to be followed.

- Run, if it is safe to do so and move far away until you are in a safe location.
- Take shelter inside the nearest building.
- If you can't avoid the threat, hide as best you can.
- Take Cover behind any hard physical cover.
- If you are inside a building get out, run, and evacuate if that is the best option and strategy.
- Leave your belongings behind.
- Help others to escape and warn people about the shooting.
- As you exit the building keep your hands clear so that others will differentiate you from the shooter.
- If you can't escape hide in a place where you are well protected.
- Don't bunch together, stay parallel to the floor.
- Lock doors if you are inside a room.
- Don't stay close to the windows
- Remain calm and silent on your phone.
- Dial 119 for police assistance.
- Act, resist, fight as final action only when your life is imminent danger.

HOSTAGE SITUATION

If you hear or see a hostage situation, immediately be away from the scene and inform the Campus Security and Safety Unit on 011 754 3161, Ext 3161 or dial 119.

IF YOU ARE TAKEN HOSTAGE:

- Remain calm, be polite, cooperate with hostage takers.
- Do not attempt to escape unless there is an extremely good chance of survival.
- Speak normally. Do not complain and avoid being belligerent.
- Do not do sudden body movements, statements, comments.
- Avoid getting into political or ideological discussions with captors.
- Try to establish a relationship with captors.
- Try to stay low to the ground or behind covers from windows or doors if possible.

IN A RESCUE SITUATION:

- Do not run, drop to the floor, and remain still. Make no sudden moves.
- Wait for instruction and obey all instruction you are given.

CHEMICAL OR GAS RELEASE, UNCONTROLLED CHEMICAL REACTIONS

- If you discover a chemical spill or release from a container, tank, or operating equipment: immediately notify the Lab Technician.
- If the substance is not immediately identifiable, do not take the time to identify it.
- If the spill/ release is minimal, do not push the fire alarm unless there is a fire.
- Attempt to stop the release at its source but assure that no danger to human health exists first.
- Follow the simple procedure (turning valves, plugging leaks, etc..) may be attempted if there are no health or safety hazards.
- Don't attempt to clean up the spill.
- If there is an immediate threat to human life (fire in progress or fumes are overcoming anyone) push the fire alarm.
- Request the assistance of the fire department's hazardous materials response team.
- Evacuate the building.
- Do not use elevators in case of fire.
- Do not panic or cause others to panic.
- Report to your designated assembly point.
- If anyone has contact with hazardous material, they should be isolated and await treatment by emergency personnel.
- Do not reenter an evacuated building.

SEVERE WEATHER CONDITION (STORM, FLOOD...)

- If indoors, seek refuge in a doorway or under a desk or table. Stay away from windows, shelves, and heavy equipment.
- If outdoors, move quickly away from utility poles and other structures.
- Avoid power or utility lines as they could be energized.
- Always protect yourself and be prepared for any other hazard or after effect.
- Evaluate the situation and if emergency help is necessary call the CSSU on 011 754 3161 or Ext: 3161 or dial 119.

MEDICAL EMERGENCY

MINOR INJURIES/ILLNESSES

- In case of minor injury or illness to a person, administer basic First Aid you know how to control.
- Contact the Medical Officer.
- Notify the CSSU on 011 754 3161 or Ext 3161 and seek assistance.

SERIOUS INJURIES/ILLNESSES

- In case of serious injury or illness, immediately contact the Medical Center / CSSU on 011 754 3161 or Ext 3161 even during non-working hours.
- Don't move a seriously injured person unless there is a life threatening situation.
- Don't hang up until directed to do so by the CSSU officer. Evacuate to a nearest medical Center.
- Keep the victim as calm and comfortable as possible.
- Remain with the victim.

PSYCHOLOGICAL ISSUES

RESPOND TO SITUATIONS:

- Offer support and assistance.
- Speak privately as needed.
- Be caring and firm.
- Notify Student Services and Medical Officer for further action.
- Never try to handle a situation you feel is dangerous. Don't endanger your safety.
- If you need immediate assistance. Give your name, location (Building name, floor, room number) and briefly describe the nature of the situation.
- If during regular working hours, notify Student Services or Faculty Head for further action on medical care by the Campus Medical Officer or for immediate evacuation to a hospital.
- If during non-working hours call CSSU for appropriate action on 011 754 3161 or Ext 3161.
- If you are in contact with the student who appears to be an immediate threat to his or her own safety or that of others, immediately Contact the Medical Officer or call CSSU on 011 754 3161 or Ext 3161.

BUILDING EVACUATIONS

- A building shall be evacuated by activating the fire alarm or in the event the alarm is not functioning, shout and inform the occupants to vacate.
- All building occupants are required to evacuate when the fire alarm sounds.
- Depending on the time availability, before leaving, stabilize lab procedures, turn off stoves, unplug or disable any devices that could make situation worse.
- Exit from the nearest exit and proceed down the fire stairs in a safe and orderly manner.
- Don't use elevators.
- After exiting from the building report to the designated assembly point.
- Inform emergency responders of trapped, especially anyone with a physical disability who can't evacuate.
- In emergency evacuation disabled individual should be treated.
- Check the evacuation routes for obstructions before assisting the person to exits.
- Don't go back to the building for any reason until an authorized officer or emergency responder declares it safe to enter.

ELEVATOR EMERGENCIES

Do's

- Remain Calm.
- Ring the alarm.
- Use other means to communicate.
- Move to the rear of the elevator.
- Focus on the task at hand.

Don'ts

- Don't jump up and down.
- Don't try to force open the door.
- Don't try to exit when the doors are slightly open.
- Don't panic.

**ELEVATORS ARE SAFER
THAN YOU THINK!**
